

PURPOSE

Christian Ministries Institute exists to increase the number of qualified Christian workers by providing a college-level education in Christian ministries with an alternative format to the traditional Christian college.

VALUES

We believe in excellence in education.

Our classes are taught by highly qualified instructors and are comparable to college-level instruction.

We believe in balance education.

Training in Theology
Developing Christian Character
Providing Practical Skills

We believe in providing affordable and convenient education.

Ensuring that our education is designed to be accessible to the student who is unable, because of time or resources, to attend a traditional Christian college.

We strive to keep the financial costs affordable and offer classes at times convenient to those who work full time.
